You might try substituting other favourite foods to make new verses
For breakfast maybe Coco Pops, Weetabix, Museli and for lunch maybe Carrots or
other vegetables

Also change the names of the meal times if you like. What do people call their evening
meal? Dinner / Supper / Tea / another name?

Discuss diets and whether we want to sing about meat and fish or stick to plant-based
foods.

It might be good too to change all the foods to what young people have experience of
cooking The last line of each verse then would change to "That's what I like to COOK"
